Visual Arts Centre

Welcome to the Visual Arts Centre, a thriving cultural community of artists, teachers, and students. We've been part of Montreal's artistic fabric for 75 years! Our School of Art is Canada's largest bilingual independent art school. Our McClure Gallery offers exciting exhibitions, and educational programming. Our outreach program—ARTreach—reaches out into the community to creatively engage with the broader public.

Our Mandate:

To offer excellence and accessibility in the education and presentation of the visual arts. To provide a welcoming, inclusive, and stimulating environment that encourages the development of skill, creativity, and critical thinking in each student. To address the needs of the community through arts programming. To promote and advocate for the role and benefits of the visual arts in broader society. To employ art education as a means to support, enhance, and promote social justice efforts.

Our Administrative Team:

The administrative team at the Visual Arts Centre is composed of specialized members who are highly passionate about our cultural community. They work hard to offer a welcoming environment and ensure that your studio experiences are inspiring.

A Note from the Director:

As I write this note, I am filled with nostalgia - at the beginning of November, 2021, I will be leaving my position at the VAC to begin my new position at the University of Victoria. It has been an absolute honour and joy to serve this inspiring, creative community. Over the past 5 years, I have had the great privilege of collaborating with an incredible team of arts administrators, teachers, artists, and Board Members. Together, we diligently worked to offer engaging, inclusive, and meaningful art education experiences to our diverse community of inspiring students and partners. I have grown tremendously with you - the experiences and knowledge I gained over these years will inspire and inform all that I do in the future. I extend my deep gratitude to each of you and am looking forward to staying connected with the VAC community.

Importantly, I am thrilled that the Centre will be in phenomenal hands, as Amber Berson will be the new Executive Director. Amber comes with extensive arts administration experience and is an active researcher, writer, and curator. Most recently, she was the Programming Coordinator at articule and the Co-Lead Organizer at Art+Feminism. She has also held the roles of Development and Outreach Coordinator at Eastern Bloc, Wikipedian in Residence at Concordia University, and Programming and Administration Coordinator at SBC Gallery of Contemporary Art. Amber will soon be defending her doctoral dissertation in the Department of Art History at Queen's University. As a former VAC student, Amber has a clear love for this creative community. With her impressive experience working with artists, art spaces, and grant writing, as well as her personal connection to the VAC, I am certain that Amber will ensure that the Centre continues to thrive and blossom.

It truly has been a great joy and honour to work and grow with the VAC over the past five years. Thank you to each VAC community member for contributing to the Centre during my time here. And, I extend a very warm welcome to Amber!

Jazz Keillor • *Of Stuff* (Gallery 1)

Exhibition: November 5 to 27

Virtual Guided Tour: November 4 at 5 pm

Art Hive (in-person) with Jazz Keillor:

Nov. 27, 10:30 am to 1 pm

Objects harbour emotional histories and intimate meanings; everyday items and precious possessions have stories to tell that are deeply personal yet capable of reflecting the experiences of entire communities. In this exhibition, Jazz Keillor explores the societal and psychological underpinnings of physical objects and examines the ways in which we accumulate, use and ritualize "stuff" as we construct home and identity through acts of place-making.

Stella Pace • *Collage et assemblage* (Gallery 2)

Exhibition: November 5 to 27

Virtual Guided Tour: November 4 at 5 pm

Workshop (in-person) with Stella Pace:

Nov. 13, 11 am to 2 pm (\$50, registration [here](#)).

The installations in Stella Pace's exhibition include sculpture, large-format drawings and mixed-media collage that play with figuration and abstraction. Each work is part of a continuum, more passionate than logical, more intuitive than reasoned, more improvised than programmed - the experience of a heartbreaking adventure where faith and despair, anguish and exaltation, desire and pleasure are inextricably mixed.

Norma Morgan Lecture Series

Cheryl Sim • *The art of being of service to art*

Online talk: November 18 at 6pm

[Zoom Link](#) - Facebook Live

During this talk, Cheryl Sim (Managing Director and Curator, Fondation Phi) will share her work as an artist and curator who has, for over twenty-five years, been guided by a spirit of service. As a Canadian-born woman of colour, her journey has led her to encourage and nurture space for a multiplicity of voices in contemporary art. She will share key experiences that led her to define an everyday practice focused on a contribution to society through art.

Nikki Middlemiss • *Elevate*

Exhibition: December 3 to 24

Virtual Guided Tour: December 2 at 5 pm

Art Hive with Nikki Middlemiss (in-person):

December 18, 10:30 am to 1 pm

An exploration of transformative states and time as defined through the repetition of a mark or gesture are unifying themes in Nikki Middlemiss' art practice. With these new drawings, she continues her use of layers and transparencies as she explores the inherent qualities of the tracing paper surface and the interactions of materials. Following the application of paint the paper warps as it dries, behaving much as skin does as it heals a wound. As the fragile, transparent support shrinks and abrades, the drawing elements coalesce into new form.

Elisabeth Picard • *Hylozoïsme*

Exhibition: January 7 to 29

Virtual Guided Tour: January 6 at 5 pm

Art Hive with Elisabeth Picard (in-person):

January 29, 10:30 am to 1 pm

The leitmotif in Elisabeth Picard's sculptural compositions is created by lines and knots that unfold in space as animate or inanimate matter. Fascinated by processes of growth and transformation and the structure of natural forms, the artist creates forms that evoke the principle of hylozoism, according to which "all matter is endowed with life" by perpetual movement, but also by a machine sensibility that suggests the natural turning and bending of living beings.

Chantal Khoury • *Carrying lace and soil*

Exhibition: February 4 to 26

Virtual Guided Tour: February 3 at 5 pm

Art Hive with Chantal Khoury (in-person):

February 26, 10:30 am to 1 pm

Chantal Khoury's work critically examines the fetishism of aesthetic motifs in visual culture and the idea of the Western gaze. Migration is a recurring event in the artist's lineage and her subjects are in constant flux. Discreetly incorporating orientalist painting tropes in her tableaux, she questions these unreliable strategies and creates a psychological space that commemorates her heritage while resisting the perpetuation of exoticism.

Asinnajaq, curator - *With the Seasons*

Exhibition: March 4 to 26

Virtual Guided Tour with invited artists:

March 3 at 5 pm

Workshop with Hannah Tooktoo:

March 5, 10:30 am to 1 pm ([Register here](#))

Storytelling Art Hives (in-person):

March 19 and 26, 10:30 am to 1 pm

In *With the Seasons*, a new generation of artists from Nunavik takes the stage alongside artwork by a handful of trailblazers. For this exhibition Inuk artist-curator Asinnajaq turns to the relationship between Inuk and weather, inviting artists to reflect on a moment in the land to explore its own unique power and influence. Their work will be presented alongside historical artworks from the Avataq Cultural Institute's Nunavik Inuit Art Collection. This exhibition will be accompanied by a trilingual catalogue.

Annual Student Exhibition 2022

Exhibition: April 1 to 23

Virtual Guided Tour: March 31 at 5 pm

Art Hive (in-person): April 23, 10:30 am to 1 pm

Students registered in the winter session at the Visual Art Centre's School of Art are invited to exhibit their work in our annual student exhibition. The exhibition, which includes hundreds of works in a wide variety of media, gives our students the experience of seeing their work in the context of a professional gallery and provides an opportunity for the public to see the great diversity of creative activity that takes place at the Centre.

Art Hives

One per month in-person, with an online component on [Gallery McClure's Facebook Page](#). Come set your imagination free and experience the pleasure of artistic expression! These sessions, filled with relaxation and inspiration, encourage you to experiment and share your creativity. With each art hive, we will be inspired by the monthly exhibition in the McClure Gallery. Create with us in this community-oriented, fun, and artistic environment.

ARTreach

Director: Amber Berson

McClure Gallery ARTreach Project Manager: Thi-My Truong, Gallery Coordinator

ARTreach is the Visual Arts Centre's free community outreach programme. Through a variety of projects, we reach out to and creatively engage with different populations in the broader community. Our goal is to reach those who might not otherwise have the opportunity to participate in visual arts education. We have been actively involved in community outreach projects for over twenty years. We work collaboratively with other educational institutions, community organizations, independent artists, and social workers, lending our expertise to projects that embrace art as a means of community and individual well-being and social change.

Starting fall 2021, thanks to funding from an anonymous foundation, we are continuing our Intergenerational Art Project with the Centre des aînés de Pointe-Saint-Charles and the École de Charles Lemoyne. Artist and Art Educator Zoe Compton will guide these groups in exploring their local community, using textile map making. This year's programme will encourage the participants to draw on the knowledge and skills they have gained in the previous two iterations of the project. We are looking forward to holding some of these workshops in person.

Also, this winter, we are planning to hold the monthly McClure Gallery Art Hive directly in the gallery. An Art Hive is a welcoming arts-based community space that encourages self-directed and group creative learning. Participants are encouraged to experiment and exchange their knowledge and skills. Community members are offered the opportunity to engage with mini themes that are linked to the exhibition in the gallery at the time. Our art hives are free and open to all!

FUNDING ARTREACH—YOU CAN HELP!

ARTreach projects are dependent on funding. As a non-profit registered charity, we seek funding each year from foundations, corporations, government agencies, as well as individual donors for specific ARTreach projects. In addition, we contribute ten percent of the Centre's fundraising revenues to ARTreach.

A GRATEFUL THANK YOU

We are deeply grateful to the many generous donors who have supported ARTreach. We extend a heartfelt thank you to an anonymous foundation for generously supporting the Intergenerational Art project.

School of Art

Our School of Art

Our School of Art is the largest bilingual, independent art school in Canada and has been involved in the teaching of art for 75 years. We register almost 4000 students a year, of all ages and walks of life. Our students range from the absolute beginner to students wishing to develop a portfolio or professional artists returning to hone new skills. Classes are bilingual.

Our Philosophy and Curriculum

Our philosophy of teaching balances the development of technical skill with the encouragement of personal creativity. Admission to introductory courses is based on the interests of the student; no formal education is required. Small classes of 15 students or less allow for much individual attention. Our curriculum of approximately 325 courses annually includes most major disciplines in the visual arts, from introductory to advanced levels. Workshops by visiting artists and our own faculty enhance the programme throughout the year. As well, our McClure Gallery shares the school's educational mandate, offering regular lectures, artist-guided tours, and conferences on ideas and issues of interest to the arts community.

Our Community

As a cultural space, the Centre is renowned for its vibrant sense of community and engagement amongst students, artists, teachers, and staff. We offer you a warm, encouraging, and welcoming environment in which to develop and explore your personal creativity and pursue your artistic passions.

Portfolio Development and Mentorship

This program is designed to help you get the most out of your art practice at home. One of our teachers/artists will help you one-one-one, improve your skills, give you feedback on your current work or support you in the early stages of a new creative project. A one-hour session will be conducted via email, Zoom or another online platform, with content tailored to your interests and needs.

Open Studios at the VAC

Due to the COVID-19 pandemic, the Visual Arts Centre has implemented new measures in order to keep students, teachers and staff as safe as possible in our building. For this reason, we are not able to offer the same open studio time to registered students. Please refer to each Department section for more information about open studios in your medium. Thank you in advance for your understanding.

Teen Portfolio Programme (13-17 yrs)

[Online or in-person](#)

For students planning to pursue studies in Fine Arts, the Teen Portfolio Programme provides one-on-one mentoring to help create a portfolio for advanced studies. Each teen will be paired with experienced artists/teachers who will guide them in the process of developing a body of work, selecting artwork, laying out the portfolio, and writing an artist statement. Students can register for blocks of 3 sessions. While it can be taken on its own, it is recommended that students undertake the portfolio programme in conjunction with a regular semester course. Each session is 1.5 hours.
